

**June 8 – CareOne Morris Assisted Living presents
Guest Speaker at Parkinson’s Disease Support Group**

CareOne at Morris Assisted Living is pleased to announce that Judith Gisser will be the featured guest speaker at our Parkinson’s Support Group on June 15th at 1 pm.

Over 30 years ago our speaker, Judith Gisser, M.S., C.N.S., C.W.C., began a search for answers to her own health challenges and those of her family. That search developed into a lifelong study of nutrition and health.

Judith has taken the answers she found and created workshops entitled *Healthy Living and Effective Life Management*, which she has presented in corporate, medical and educational settings for over 20 years. She is also the proud author of *Your Path to Optimum Health and Wellness* and heads a private practice in Morris Plains, NJ.

Gisser’s husband has Parkinson’s Disease and still works at age 72 in the computer field. She comes equipped with a lot of useful information including the nutritional needs of those with Parkinson’s Disease. Please join us for this wonderful opportunity to hear an expert in the field.

CareOne manages Nursing Centers, Assisted Living Centers and specialty Memory Loss Centers throughout New Jersey. To learn more about **CareOne**, please visit our home page and Care Location Finder at the **CareOne Web Site** or call (201) 242-4034.
