Clinical Programs and Capabilities

Sub-Acute Rehabilitation.

Somerset Valley Rehabilitation and Nursing Center offers inpatient rehabilitation services for patients in need of care following a hospital stay. Our highly acclaimed physician-driven programs and outstanding nursing care are designed to attend to the individual needs of each resident, ensuring maximum recovery potential while providing the highest standards of care. Our patient-centered approach focuses on designing a customized treatment plan to meet every patient's individual needs and goals. After patients are discharged, a one-on-one home visit is scheduled as needed to ensure that the transition from the CareOne center to home is successful and that all needs are being met.

Long-Term Care.

Somerset Valley Rehabilitation and Nursing Center's long-term care program combines the clinical support of highly-skilled professionals with a menu of exciting programs and services designed to promote an environment dedicated to health and well-being. Our comprehensive care teams are committed to maintaining the dignity and quality of life for the residents and families we serve.

Our medical and physical rehabilitation team consists of:

- 24-hour-a-day Registered Nurses
- Licensed Physical, Occupational and Speech Therapists seven days a week
- On-site Primary Care and Physical Medicine Physicians
- On-site Consulting Physician Specialists
- Registered Dietitians
- Case Managers
- Social Workers
- Certified Nursing Assistants
- Therapeutic Recreation Director
- Spiritual Support Services

Assisted Living Facility Coming in 2015!

Construction of a new building that will house a contemporary, 72-bed assisted living and memory care unit is currently underway.
